### NEW: Aalen International Program

Dear Partner,

With the enclosed booklet "Aalen International Program", we would like to present Aalen University for the Winter Semester 2021/2022 and the Summer Semester 2022.

The booklet includes practical information your students might find valuable when deciding whether to go abroad and where. We would appreciate it if you could pass the information on to your students and interested colleagues. The pdf-version of the booklet can also be found under [https://www.hs-aalen.de/en/pages/aaa\\_english-taught-lectures](https://www.hs-aalen.de/en/pages/aaa_english-taught-lectures).

In contrast to the previous AIP booklet, the new version does not include a catalogue of English taught lectures as we have switched to a digital format for the catalogue, which can be found under the same link as the booklet. Students can view all offerings of English taught lectures and further course information to help them better plan their semester abroad at Aalen University. This course information will always be kept up to date and available to prospective students. The AIP booklet will be updated once a year.

Please Note: The nomination deadline for Winter Semester 2021 / 2022 is April 1, 2021, and the application deadline is April 30, 2021. Shortly, you will receive an invitation for nomination/application from us via email, including the link to our Mobility Online System.

Corona has posed many challenges to all of us this last year, but we remain optimistic that the situation will normalize soon and we look forward to once again welcoming higher numbers of your students at Aalen University and to further exchange opportunities!

Best Regards,

Your Team from the International Relations Office of Aalen University

Encl.
