How Artificial Intelligence is Reshaping the World?

Presentation and Program

Thursday, February 6, 2025, from 6:00 PM to 8:45 PM in Bangkok

Format & Venue: In-person at the Alliance Française - 179 Witthayu Rd, Lumpini, Pathum Wan, Bangkok 10330.

Languages: Thai and French (simultaneous interpreting).

Audience: Professionals in the field of AI, researchers, academics, students and general public.

Presentation :

Artificial Intelligence (AI) is advancing at a remarkable pace, reshaping countless aspects of our daily lives. From revolutionizing industries to transforming education, healthcare, and governance, AI is not just a technological breakthrough but a profound driver of innovation. At the same time, it raises pressing questions about its societal, economic, and ethical implications.

As the world rapidly adapts to these changes, the upcoming **Summit for Action on AI**, scheduled for February 10–11, 2025, in Paris, will serve as a crucial platform for global leaders to strategize and address these evolving challenges.

In this context, the roundtable discussion "**How Artificial Intelligence is Reshaping the World**", organized in Bangkok, will delve into AI's transformative impact on our societies. Bringing together distinguished speakers from diverse backgrounds, this event aims to provide unique insights into the opportunities and challenges posed by AI.

Among the speakers, acclaimed French science fiction author **Pierre Bordage** will explore the imaginative dimensions of AI and its portrayal in literature. **Dr. Thepchai Supnithi**, Director of the Artificial Intelligence Research Group at NECTEC, will discuss AI's fundamentals and applications in Thailand. **Dr. Chaichana Mitrpant**, Executive Director of the Electronic Transactions Development Agency (ETDA), will offer insights into AI governance and cybersecurity, while **Bert Porteman**, Chief Representative of Airbus in Thailand, will shed light on how AI drives innovation in the aerospace industry.

Schedule :

6:00 PM – 6:05 PM: Screening of the Alliance Française promotional video.

6:05 PM – 6:10 PM: Opening Remarks by the French Ambassador to Thailand.

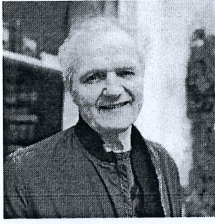

6:15 PM – 6:45 PM: Introduction of the speakers and first round of questions.

6:45 PM – 7:00 PM: Screening of a short documentary on the history of AI development and its operating principles.

7:00 PM – 7:45 PM: Roundtable Discussion and Q&A moderated by Dr. Ludovic Andrès, Science and Higher Education Attaché, French Embassy in Thailand.

7:45 PM – 8:45 PM : Cocktail Reception

Speakers :

Born in January 1955, **Pierre Bordage** is a renowned French science fiction author. He gained significant acclaim with his trilogy “Les Guerriers du silence,” published by Éditions de l’Atalante, which sold 50,000 copies. This space opera, along with the “Wang” series, is celebrated by literary critics as a cornerstone of the French science fiction revival in the 1990s, a genre previously dominated by English-speaking authors.

Dr. Thepchai Supnithi is the Director of the Artificial Intelligence Research Group at the National Electronics and Computer Technology Center (NECTEC) in Thailand. His research focuses on machine translation, text summarization, corpus construction, and the application of artificial intelligence across various fields, including culture, education, and medicine. He also serves as the Vice-President of the Artificial Intelligence Association of Thailand.

Dr. Chaichana Mitrpant is currently the Executive Director of the Electronic Transactions Development Agency, Ministry of Digital Economy and Society of Thailand, a primary government agency responsible for developing, promoting, and supporting electronic transactions in Thailand. He is well-known among public sector management professionals as an expert in IT security. During his tenure at ETDA, he has represented Thailand at various international fora and helped negotiate successful collaborations and bilateral meetings at ASEAN, APT, ITU, and the UN. Additionally, he has provided his expert opinions and recommendations to other organizations on numerous occasions.

Bert Porteman is the Chief Representative of Airbus in Thailand, leading the company’s operations and partnerships in the region. Airbus is a global leader in aerospace, designing and manufacturing commercial aircraft, helicopters, military transports, and satellites, with a strong focus on innovation and sustainability.

HOW TO PARTICIPATE?

Free admission, limited seats available. To secure your spot, please scan the QR code below and register before February 4.
