

ประกาศรับสมัครโครงการหลังปริญญาเอก DAAD Networking Tour “AI in Cyber Physical Systems”

The call for Postdoc-NeT-AI 10/2022 is out! The focus is on Artificial Intelligence in Cyber Physical Systems.

Twice a year, the DAAD selects a group of outstanding postdoctoral researchers and experienced PhD candidates worldwide to participate in the Postdoctoral Networking Tour in Artificial Intelligence (Postdoc-NeT-AI, daad.de/ainet). The fellowship includes a Virtual Networking Week and a one-week travel stipend with plenty of opportunities to personally connect with leading researchers and research institutions from all over Germany. Fellows will also become part of the DAAD Ainet Fellows and Alumni Network, thus expanding and strengthening the cooperation within the group and with the German research community.

Application deadline for the 10/2022 tour is Monday, August 1, 2022, at 11:59 pm CET/UTC+1.

For more information and to apply go to daad.de/ainet/apply.

If you have any question, contact us at ainet@daad.de.
